

MD ISMAIL HOSSAIN

Full Stack Developer (Python / FastAPI)

+8801608591562 | ismailibnesyed@gmail.com | Chattogram, Bangladesh

[LinkedIn](#) | [GitHub](#) | [Portfolio](#)

CAREER OBJECTIVE

Full Stack Developer skilled in Python, FastAPI, React, and PostgreSQL, with experience building REST APIs, authentication systems, and database-driven applications. Driven to keep growing as an engineer, with an active roadmap toward system design, DevOps, and AI/ML.

SKILLS

Frontend: HTML, CSS, JavaScript, Tailwind CSS, Bootstrap, React

Programming Languages: Python, JavaScript, C++, C

Backend: FastAPI, REST API, Authentication/Authorization

Database: PostgreSQL, SQL, MongoDB

DevOps/Tools: Git, GitHub, Linux, Docker, Redis, Nginx

Soft Skills: Problem Solving, Self-Directed Learning, Technical Documentation, Collaboration

PROJECTS

i. PowerCare (Bidyut Bondhu)

[GitHub](#) | [Live Site](#)

Load shedding and power outage management with role-based access for users, technicians, and admins.

- Designed the database (Users, Areas, Complaints, Schedules) with SQLAlchemy and PostgreSQL, and organized the API into separate FastAPI routers for auth, admin, technician, and user features.
- Implemented JWT-based login with bcrypt password hashing and role-based access so each endpoint is available only to the right users.
- Built a complaint system where users report power outages by area, admins assign them to technicians, and technicians resolve them.
- Deployed the full project live: React frontend on Netlify, FastAPI backend on Render, and PostgreSQL database on Supabase.

Technologies: FastAPI · React · PostgreSQL · SQLAlchemy · JWT · Netlify · Render · Supabase · Password Hashing

ii. Library Management System

[GitHub](#) | [Live Site](#)

Full-stack library system with book reservations, issue tracking, and role-based access.

- Built a REST API with FastAPI and PostgreSQL for books, reservations, and issue tracking.
- Implemented JWT authentication with role-based access control for different user roles.
- Developed a responsive React interface.
- Deployed the frontend on Vercel and the backend on Render.

Technologies: React · FastAPI · PostgreSQL · JWT · Vercel · Render

EDUCATION

B.Sc. in Electronics & Telecommunication Engineering

2024 – 2029 (Expected)

Chittagong University of Engineering & Technology (CUET)

LANGUAGES

English — Professional Working | Bengali — Native
